## COMPETENCY BASED UNDERGRADUATE CURRICULUM IN PHASE II

Batch 2020-2021

Time	DAY 1 01.03.21 Monday	DAY 2 02.03.21 Tuesday	DAY 3 03.03.21 Wednesday	DAY 4 04.03.21 Thursday	DAY 5 05.03.21 Friday	DAY 6 06.03.21 Saturday	DAY 6 07.03.21 Sunday
08-09AM	<p><b>(MI1.1)</b>  <b>Introduction to</b>  different branches of  microbiology  (bacteriology,  immunology,  parasitology,  virology and  mycology)  <b>Contribution of</b>  famous scientists in  the various  microbiological fields</p>	<p>PA  1.1.1 describe role of  pathologist in  diagnosis of disease  1.1.2 Describe role of  pathologist in  management of  disease  1.2.1 Enumerate  common definitions  and terms in  pathology  1.3.1 History and  evolution of  Pathology</p>	<p><b>FM3.1</b>  Enumerate various  parameters for  identification.  Explain Corpus  Delicti.  Differentiate  different races on  the basis of skeletal  examination.  Differentiate sex on  the basis of skeletal  examination</p> <p style="background-color: yellow;"><b>Microbiology</b>  <b>(DOAP session)</b>  <b>(MI8.7)</b>  Standard precaution,  Personal protective  equipment (PPE),  Hand Hygiene</p> <p><b>(PH1.4)</b>  Define  Absorption.  Describe various  biotransport  mechanisms  Describe the  factors that govern  the absorption of  drugs  Define  bioavailability and  bioequivalence.</p>				

# Shaheed Hasan Khan Mewati Government Medical College Nalhar, Nuh (Haryana)

## COMPETENCY BASED UNDERGRADUATE CURRICULUM IN PHASE II

### Batch 2020-2021

			CM6.3 (1) Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs ( <b>Parametric tests 1</b> )			
<b>09-10 AM</b>	<p><b>(PH1.1)</b> To Define the following terms: pharmacology, pharmacodynamics, pharmacokinetics, pharmacotherapy, drug &amp; essential drugs. Trace developments in the discipline of Pharmacology since ancient period Enlist various branches of pharmacology. Enlist sources of drug information</p>	<p><b>MI 1.1</b> Morphology &amp; Physiology of Bacteria</p>	<p>FM3.1 Enumerate various parameter for identification. Explain Corpus Delicti. Differentiate different races on the basis of skeletal examination. Differentiate sex on the basis of skeletal examination</p> <p><b>Microbiology (DOAP session) (MI8.7)</b> Standard precaution, Personal protective equipment (PPE), Hand Hygiene</p>	<p>PA 2.1.1 Phase II student should be able to enumerate causes of cell injury 2.1.2 Describe mechanism of cell injury 2.1.3 Discuss types of cell injury 2.1.4 Discuss clinical effects and significance of cell injury 2.2.1 – same as 2.1.1( causes of cell injury) 2.2.2 Phase II student should be able to enumerate differences in between reversible and irreversible cell injury 2.2.3 same as 2.1.2 (mechanism) 2.2.4 describe morphologic changes in reversible and irreversible cell injury</p>	<p>FM1.1-FM1.2 Understand important terms like Forensic medicine, Clinical Forensic Medicine, Forensic Pathology, State Medicine, Legal Medicine and Medical Jurisprudence. Define important terms like Forensic medicine, Clinical Forensic Medicine, Forensic Pathology, State Medicine, Legal Medicine and Medical Jurisprudence. Describe the history of Medicine. Describe the history of Forensic Medicine</p>	

# Shaheed Hasan Khan Mewati Government Medical College Nalhar, Nuh (Haryana)

## COMPETENCY BASED UNDERGRADUATE CURRICULUM IN PHASE II

### Batch 2020-2021

			<p>(PH1.4) Define Absorption. Describe various biotransport mechanisms Describe the factors that govern the absorption of drugs Define bioavailability and bioequivalence.</p>					
			<p>CM6.3 (1) Describe, discuss and demonstrate the application of elementary statistical methods including test of significance in various study designs (<b>Parametric tests 1</b>)</p>					
<b>10 AM-01 PM</b>	CLINICAL POSTING							
<b>01-02 PM</b>	LUNCH
